Shanxi Midas Industrial Co.,Ltd.

Have a good meal

Nutrition and health start with eating well

Enjoy delicious food naturally

CORN STARCH MATERIALS

Made by environmentally friendly materials, mainly extracted from corn starch. It is a natural biodegradable environmental material in the natural environment through microorganisms and enzymes. Non-toxic, tasteless and colourless.

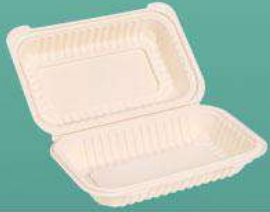

Biodegradable cycle processes

Meet environmental health requirements Enjoy a better life

Bio-based fast food box VS traditional lunch box

Bio-based fast food box

from natural, edible starch, pollution-free, more healthy, 18-36 months under natural conditions can be degraded, under specific conditions can be degraded in 90 days.

In line with the development trend of national environmental protection policy

Traditional lunch box

non-degradable, seriously polluted plastic products which is seriously homogenized

it is difficult to meet the requirements of spill prevention and insulation for takeout packaging of restaurants these days

As a variety of food container
